FOR IMMEDIATE RELEASE

The New Face of Dietetics... Registered Dietitian Martin Yadrick Selected to run for President-Elect of the American Dietetic Association

Chatsworth, Calif. February 8, 2007--Computrition, Inc. team member and registered dietitian Martin Yadrick, MS, MBA, RD, FADA has been selected as a candidate for President-Elect of the American Dietetic Association (ADA), the nation's largest organization of food and nutrition professionals. Yadrick has been an active ADA member, and volunteer leader at all levels of the Association since 1989. Currently the Treasurer of the Association, Yadrick has also served in multiple capacities, from Chair of the ADA Diversity Committee from 2001-2002, to serving as a national ADA Spokesperson from 1989 to 1996. At the state and district level, he served as Vice President – Practice Council for the California Dietetic Association, Secretary of the Missouri Dietetic Association, and President of the Kansas City Dietetic Association.

Yadrick has remained steadfast in his commitment to join other ADA leaders in their efforts to increase minority membership and expand programs to recruit under-represented groups, such as Hispanics/Latinos, African Americans, and Native Americans into the profession of dietetics. Yadrick and his colleagues on the ADA Board will promote programs that focus on understanding cultural differences and providing optimal services for diverse populations. Programs include: creating multi-lingual publications, offering more minority scholarships, and training for dietetics students and professionals on working with clients from various cultural and ethnic backgrounds.

"It would be an honor to serve as the President of ADA. My experience as a volunteer leader at the national, state and district levels has prepared me to carry on the Association's goals, including working to build an aligned, engaged, and diverse membership," says Yadrick. "As the authority on public health nutrition, ADA has a responsibility to address the needs of our country's rapidly changing population and I will work to keep the critical issue of diversity in the forefront"

Yadrick, a graduate of Colorado State University, is Project Manager for Computrition, Inc., a California-based provider of integrated software solutions for the healthcare and hospitality industries. Yadrick is a Fellow of the American Dietetic Association and is a past Recognized Young Dietitian of the Year recipient from Missouri. He was recipient of the 2006 Distinguished Service Award from the California Dietetic Association and the 2004 SCAN Achievement Award from the ADA Dietetic Practice Group of Sports, Cardiovascular and Wellness Nutritionists.

Voting for the 2007-2008 ADA slate is open until Saturday, March 3, 2007.

About ADA

With nearly 65,000 members, the Chicago-based American Dietetic Association serves the public by promoting optimal health and well-being for all people. Visit ADA at www.eatright.org.
