## **FOR IMMEDIATE RELEASE**

### **Computrition Founder Receives NACUFS President's Award**

**Chatsworth CA, July 15, 2009**—Computrition, Inc., a subsidiary of Constellation Software Inc. (TSX: CSU) as well as a leading developer of hospitality, food management and patient care automation, is pleased to announce that its Founder, Ellyn Elson, RD, was recently honored with the Pacific Region President's Award at the 2009 NACUFS National Conference, held recently in Milwaukee, WI.

This recognition was given by NACUFS Pacific Regional President and Foodservice Director at the University of California, Santa Cruz, Scott Berlin at the Awards Breakfast on Thursday, July 9, 2009. The Award was granted in acknowledgement and appreciation for her long-term support and service to the Association at both the Regional and National level. Elson has served as the Regional Industry Advisory Council Chair for the past 9 years and also completed her term as National IAC Chair in 2007. She is a 2006 Daryl Van Hook Award recipient, the highest honor bestowed upon Industry Members of the Association and has volunteered in numerous capacities since 1990.

Elson states, "Receiving this recognition was a wonderful honor for me both personally and professionally. It came as an absolute surprise, as my involvement in NACUFS has nothing to do with recognition for my service, but rather for fostering a heightened relationship between Industry and Operator Members and the many benefits attained as a result. Higher Education Foodservice is something I have long had a passion in supporting and I couldn't be more thrilled to be honored for my continued support."

#### **About NACUFS**

The National Association of College & University Food Services (NACUFS) is the trade association for foodservice professionals at more than 625 institutions of higher education in the United States, Canada, Mexico, and abroad. Founded in 1958, NACUFS provides members with a full-range of educational programs, publications, management services, and networking opportunities. In addition to colleges and universities, over 500 industry suppliers are members of the association. These companies exhibit at national and regional showcases, serve on standing committees and participate in various educational conferences. NACUFS is governed by a board of directors and six regional councils and uses volunteer committees, project teams, and professional staff to deliver service to its members.
