## **FOR IMMEDIATE RELEASE**

### ***Computrition's Newest Customers Go Live with Hospitality Suite!***

Computrition, Inc., a leading provider of hospitality, food management and patient care automation, is proud to announce the newest users of its Hospitality Suite application solution. These customers along with the other 1800 Computrition users benefit from industry leading functionality and integration not found in any other software application available. Jacki Harder, Clinical Nutrition Manager at Alegent Health Systems, states "On July 17<sup>th</sup>, 2009 we found out that our Go Live Windows Conversion would need to be moved up approximately 36 hours, adding to the 4 facilities that were scheduled to and successfully went live on the afternoon of July 19<sup>th</sup>. My System Administrator and I never had a worry that Computrition would not be there to move things up on the timeline. Our success would not have been possible without the preplanning, training and onsite support provided by the Computrition Implementation Team to prepare us for the conversion. The coordination of technical support and troubleshooting during our 4 week parallel testing also added to our success. Many thanks to the Interface Support Team, as they are the best I have ever worked with. This has been the smoothest Go Live and conversion I have ever been involved with." Computrition would like to extend a warm welcome to the following customers, commencing successful implementations in the months of June and July:

- Alegent Health Systems
- Milton S. Hershey Medical Center
- The Principia College

#### **About Computrition**

Computrition, Inc. is a leading provider of fully integrated foodservice and nutrition management software systems in the hospitality and healthcare industries. With customers throughout the USA, Canada, and worldwide, Computrition provides an all-encompassing software system designed to increase efficiency and productivity in the healthcare, hospitality, university, school foodservice, military and corrections industries. Staffed by dietitians, foodservice directors, chefs, business & service professionals and certified technical specialists, Computrition possesses the expertise necessary to deliver the highest quality products and services with a focus on customer satisfaction, employee fulfillment, and profitability.
