all with iNutrition!*

Menus & Nutrition at Your Fingertips!

The world has gotten "smart," so Computrition has too with iNutrition, the first integrated smart phone application of its kind! An application especially designed for iPhone users, iNutrition, in conjunction with Hospitality Suite®, introduces a unique way to view current menu offerings of cafes or retail outlets within your operation. Allow guests to determine where and what they'd like to eat in advance, reducing wait times and lines associated with last minute indecision. Additionally, educate customers by extending nutrition content and putting it in the palms of their hands! Inspiring healthy dining choices for customers, tempting them with culinary creativity and capturing dollars that may otherwise go elsewhere has never been easier. With iNutrition, your customers will appreciate dining with convenience, while you profit from better bottom lines!
