SUITEPOINT!
POINT-OF-SALE

Helping you to provide the best service to customers and hospital staff, Computrition has developed a comprehensive and cost-effective point-of-sale (POS) solution that improves foodservice management by streamlining the financial transaction process.

Our premier browser-based point-of-sale solution has the functionality for full integration with Foodservice Operations Management (FOM) or simply as a stand-alone solution. **SuitePoint! POS** is designed especially for the hospital cafeteria transaction environment and built with the right peripherals for customer and employee charges.

With our **SP! Express** self-checkout solution, you can expand retail further to capture even more revenue.

REVOLUTIONIZE THE RETAIL REVENUE PROCESS!

SP SuitePoint!

Browser-based application
for dynamic retail management

Enterprise reporting
for operation-wide analysis

with barcode scanning and item lookup

Accept split payments
via declining balance and payroll deduction, plus credit card transactions

Identify idle behavior
and adjust checkout time interval for expiration

Expand availability of retail services
for overnight and weekend staff

Utilize most existing hardware

BENEFITS

SP SuitePoint!

Offers multiple payment methods: cash, credit, discounts, coupons, declining balance, payroll deduction, and pay plans

Stores data locally on the register; standalone mode prevents interruption if offline

Provides P2PE via Verifone credit card processing for enhanced security

Allows you to conduct thorough historical and forecasting analysis

Increases register throughput, minimizing long lines and shortening wait times

Prints nutrient information on receipts
(requires additional software)

SP Express

Empowers customers with the convenience and comfort of handling their transactions

Boosts employee satisfaction by allowing staff to bypass queues and enjoy more of their break time

Counteracts labor shortage issues by reducing the need for cashiers, especially during the third shift
